

Curlers' Annual Banquet Held Friday Night

President Dow Asks Curlers To Throw Weight Behind An Improved Skating Arena Equipped With Artificial Ice.

Coleman curlers over 100 strong with guests from Blairmore and Bellevue made merry on Friday evening in the IOOF hall at their annual banquet. The festivities were presided over by President Andy Dow.

A buffet supper was served and the tables groaned under the heavy load of foodstuffs.

President Dow, in a brief address, stated that only half the curling arena program had been completed. He planned on starting the second half just as soon as weather conditions permitted and he expected better support than that given him last year. He called upon his club members to put their weight behind the movement for an improved skating arena equipped with artificial ice. He asked that when called upon that they give generously. If the curlers aided in improving the arena and getting artificial ice then the curling club would feel free to ask use of the artificial ice once a year when big bonspiels were scheduled in Coleman.

President Dow then presented the McGillivray Cup to the winning skip Jim Kerr and rink members Jim Wilkie, Harold Maalen and Jack Jackson jr. Due to the non-arrival of the prizes the winning rink will receive them at a later date.

The Merchants' Cup was won by the Joe Emmerson rink. In the absence of skip Emmerson the cup was received on behalf of the rink by lead Walter Dibblee. The winning rink was presented with handsome standing ash trays.

Brief addresses were given by Bill Kerr and Jim Fisher, of Bellevue, and Harvey Carmichael and Bill Meier, of Blairmore, and Jim Anderson, who was home on leave after having re-enlisted in the Canadian Army.

The musical end of the program was led by Tom Hill, violin; Peter Meronik, banjo; Henry Buckna, guitar and George Vincent on the piano.

McKinnons To Move To Banff

Colemanites motoring to Banff this summer will have the opportunity of re-newing old acquaintance with Mr. and Mrs. Charles McKinnon.

The Journal learns that Charlie has taken over management of the CPR depot at that mountain resort and was about to leave or had already left his post of the past few years at Maple Creek, Saskatchewan. Charlie and Mrs. McKinnon left Coleman several years ago for Maple Creek but continued to keep in touch with the activities of their Coleman friends by means of The Journal.

RED CROSS NOTES

Coleman Red Cross shipped to provincial headquarters, Calgary, on Tuesday afternoon the following:

7 large quilts, 4 small quilts, 10 children's night dresses, 5 boys' shirts, 2 boys' sweaters, 5 pairs boys' socks, 1 child's dress and 2 pairs panties, 1 seaman's sweater.

PIAN ON PUTTING TENNIS COURTS IN SHAPE

Dick Shone has sent forth a call to all tennis enthusiasts that the courts are to be put into shape as quickly as possible and that they should be ready for play possibly next week. Any person, either senior or junior, who may plan on joining the club this year are cordially invited to come down to the courts and take part in the games. The annual meeting will be called within the next few weeks.

The executive desire to make it clear that those who have no intention of joining the club but who, in the past, have played on the courts for some weeks prior to the annual meeting are not expected to continue the practice this year. The courts are only open to those who intend becoming members.

Over 200 Attended Pass Fish & Game Meeting

Provincial Officers George Watt and George Spargo Addressed Meeting.

Possibly the best attended meeting in the history of Pass Fish & Game Association meetings was held at Turtle Mountain Playgrounds on Tuesday evening with Alberta president George Watt and provincial secretary George Spargo as the principal speakers. Presiding was Pass president Jim Kerr, of Coleman.

In addition to addresses the gathering witnessed some really beautiful colored films of fishing and game life in Alberta.

A wire was sent from the meeting to the provincial game guard-ian protesting against the inhuman slaughter of cow elk. It was also revealed that a fish and game warden is scheduled to be located in the Pass in the very near future.

Michel Scene Of Labor Day Celebration In The Pass

Special Train To Transport District Miners And Families to B.C. Town.

May 1 is a labor-day holiday and Pass miners and their families will gather at Michel, B.C., where the celebration will be held this year. A special train has been chartered to transport miners and their families from Alberta Pass town to the B.C. town.

A number of speakers have been secured and the program built around them. It is expected that quite a few will avail themselves of the opportunity of going to Michel.

MISCELLANEOUS SHOWER

The Mesdames J. Kostelnik, J. Lowe, R. Parry, J. Morrison and W. H. Garner were hostesses at a miscellaneous shower at the home of the former on Tuesday evening honoring Mrs. M. Hughson, a war bride who has recently arrived in Coleman.

Eight tables of court whist were played, prizes being won by Mrs. R. Gillies, Mrs. V. Brown and Mrs. A. Wilson.

Following a dainty luncheon served by the hostesses the honored guest was presented with a well filled basket of gifts for which she very ably thanked all those present.

Parallel Parking To Be Put Into Effect on Main Street; Works and Property Committee Outline Program

Council Unable to Put Daylight Saving Into Force Locally; Have Power to Decrease Certain Cemetery Plots.

Regular meeting of the council was held on Tuesday evening. Present Mayor Aboussafy, Councilors Cox, Dutil and Ramsay.

Two ladies were present to urge upon council the necessity to supply five homes on the eastern portion of town with water services. Council explained that the question had been dealt with on several occasions and that the figures received to service these five homes was quite high. However, the matter would be given further consideration and a definite decision reached by this summer.

The auditors' report covering January to March 31 was received, discussed and filed.

A letter received from Mr. Dan Morrison, a returned veteran of Calgary making enquiry regarding the prospect of setting up a radio repair and electrical store in Coleman. His letter will be acknowledged.

An aged resident, now deceased, had incurred a hospital bill in a Lethbridge city hospital. A letter was presented from the hospital which sought payment from the town. It was council's opinion that survivors of deceased were in a position to take care of the debt and the hospital will be advised of this. The debt was incurred without the council's sanction or knowledge.

A questionnaire had been received from a New York company which sought to tabulate all cities, towns and villages in the States and Canada who were about to change to daylight saving time. Since seven solicitor Bannan was present council asked him if it had the power to put the community on fast time. It was Mr. Bannan's opinion that such power was not within the jurisdiction of the council. The matter was then dropped.

The by-law setting 45 mills as the tax rate for 1946 was given its third reading.

Mr. Cox reported on the cemetery. He stated that he had been advised by Mr. Bannan that the town had the legal right to cut down the size of plots which had one used plot, and two, three, four or more plots lying idle due to the family having moved from town to towns and cities elsewhere. He proposed to cut down such plots.

The coal companies were swinging in behind the council in cemetery beautification. Company surveyors will survey both cemeteries next week and make a blue print of both places. In addition they will survey the proposed new road.

This new road started debate on the roadway which starts between the Nash and Fleming residences on Third street, passes the Jack Clark, Fred Smith, Jonty Atkinson and Flynn residences up to Sixth street. It is now proposed to have the surveyors put their instruments on that particular road and should the grade prove too steep to ultimately make this the proper road. The present roadway leading from Fourth street to Sixth would then be sold as lots on the various streets.

The cemetery caretaker will be supplied with tools and material to make himself a tool box.

Complaints are being received

that ashes are not being collected at least once a week. The ash committee will interview the ashman to determine the trouble.

Over a period of years Constable Antle has consistently asked council to make parallel parking on main street compulsory as a safety measure. The cars parked on main street on Saturday nights plus the traffic which cruises continually through the street has reached such a volume that something has to be done. Following some debate notice of motion was given that a by-law making parallel parking on main street compulsory will be brought in at the next meeting.

Works and Property chairman W. Dutil tabled his department's report on what it proposes to do in 1946. The program is an ambitious one and if completed will help materially to beautify the town.

It plans to continue its concrete sidewalk program started in West Coleman last year. This year the following are slated to be laid: starting at the Coleman hotel and continuing 75 feet which will take it to the Shield's store; from the Grand Union to Modern Electric, 134 feet in length; rear of Zak's store to the CPR depot. (However, the Model Bakery building will have to repair its basement before the concrete is laid); from the Post Office to the CPR depot; from corner of the school yard past High school to the hospital; from Canadian Legion to the west side of the creek; from Holyk's store to the Oliva residence on Second street.

The sidewalk program resulted in both Zak's Grocery and the Red & White store creating discussion on roof drainage pipes which allow drainage water to flow on the sidewalks. Both stores will be notified that they must remedy these conditions.

The drainage pipe alongside the post office will be extended to allow more parking space when parallel parking becomes effective.

The present sidewalk alongside the north of the public school grounds will be given a coating of fine asphalt for the present and will be considered for a concrete sidewalk within the next year or two.

A concrete cribbing will be placed at the entrance to the alley at the rear of the Kilgannon property and will stretch 35 feet. The opportunity will be given here for the town to launch its plan to increase all alleys to 12 feet in width.

The wooden culvert near the John Clarke residence on Sixth street and over which vehicles pass on their way to the cemeteries will be replaced with a concrete drainage pipe and widened.

Mr. Dutil proposed to seal-coat the present hard-surfaced streets but gave way to council's proposal to widen all streets which have been narrowed due to constant breaking of the asphalt and to make repairs to roads that have not broken too badly. The question of drainage to the streets at the tennis courts corner and that leading from Fourth street to Sixth street was discussed. The latter street will be left until the survey had been made of the proposed new street mentioned earlier in these notes.

Consideration will be given to leading steps up the steep hill which leads from the hospital to Second street east.

B. F. DIXON NEW CPR AGENT AT LOCAL DEPOT

Mr. B. F. Dixon, at present located at Bawlf, five miles east of Camrose, will succeed Walter Pettifor as local CPR agent.

Mr. Dixon is a married man with one or two members of his family attending school at Edmonton. He and Mrs. Dixon will arrive in Coleman just as soon as housing accommodation is available.

40th Anniversary Of St. Paul's United Church

(Contributed)

Over the years many people have interested themselves in our church, but of these none has been more faithful in keeping up with events than has the Rev. T. M. Murray, now retired and living at Owen Sound, Ont. Retired—yes, as far as being minister of a certain congregation is concerned, but only in that respect. Every Sunday he preaches at least once, and is always ready to help in any way. Many here will remember Mr. Murray as the energetic minister in charge here when the present building was erected.

Sometimes little details escape our memory; but Mr. Murray had the best system. He wrote down the details of his ministry, and the following are extracts from his notes, and sent him by a member of the congregation.

"Do you remember, there was snow that sabbath morning, April 1st, 1906? It was a great day for us. We were very happy over it. In the morning 100 persons heard Rev. Alex. Dunn (then resident minister at Fernie, B.C.) preach on 'The Church,' and in the evening 130 listened to a sermon on 'The Home' by the same speaker.

"The Ladies' Aid, under the able leadership of their president, Miss Florence McIntyre, on Monday evening provided the anniversary supper," which was to become a yearly event. Of the concert following Mr. Murray particularly speaks of the fine singing—especially that of a quartet, of which Mr. W. H. Hayson was a member.

The club room was built to serve as a reading room, open to the whole community. It was to this particular part of the work that Ralph Connor (Rev. Dr. Charles Gordon) donated \$500.

When Mr. Murray left Coleman after several years service, he was followed by Rev. D. Cameron, who served a short time before joining the 192nd Battalion and proceeding overseas. Rev. D. K. Allan next served the congregation for some ten years.

Up until the United Church of Canada was formed in 1925, our church had been called "The Institutional Church." At that time it was given the name of "St. Paul's United Church."

Upon Mr. Allan's leaving, the Rev. H. J. Bevan came to the congregation and was followed by Rev. A. E. Larke, Rev. Roy Taylor, Rev. H. J. Bevan for a second time and Rev. J. Kirk. In 1943 Rev. G. Kettys commenced his ministry here, and in November of 1945 the community was shocked to hear of his sudden passing. Since that time Rev. Mr. McKelvey and Rev. Mr. Irwin have preached alternate Sundays here, and the congregation is very grateful to them.

On our fortieth anniversary we are to have as guest speaker Rev. Mr. Bainbridge, of High River. We

Coleman Players To Compete In Drama Festival

Received A Special Invitation From Provincial Drama League; Festival to be Held Saturday, May 4.

The Coleman Players have been honored with a special invitation to compete in the Provincial Drama League festival to be held in Calgary on Saturday, May 4. The invitation was extended by the provincial body and was in recognition of the sterling acting done by the local artists despite the fact that they placed second in the Coleman Lions Drama Festival held here on April 4, 5 and 6.

The invitation has been accepted and the artists, Mrs. W. S. Purvis, Miss Edith Hayson, Arthur Graham and Steve Ondrus are making preparations for the big event. They will re-enact the same play as they did at the local festival, "The Giant's Star."

As a result of the Coleman entry the Lions festival will be represented by two entries, The Cardston Drama Club, with the play, "Funeral Flowers For The Bride" and The Coleman Players with "The Giant's Star."

First Aid Films To Be Shown At Theatre On Sunday Evening

Workmen's Compensation Board Will Show Films on Eye Injuries.

Coleman branch of St. John Ambulance Association is co-operating with the Alberta provincial branch of the association in bringing to Coleman on Sunday evening, April 28, at 8:30 in the Palace theatre, films dealing with First Aid.

The provincial association, in conjunction with the Workmen's Compensation Board, is having Mr. E. C. Emmott, provincial secretary of the association, and Mr. Owen of the Workmen's Compensation Board, visit various centres in the province with film.

In addition to the First Aid film the Workmen's Compensation Board will show film dealing with eye injuries. The First Aid film takes 30 minutes and the eye injuries film 20 minutes. In addition there will be one or more entertainment films. Both Mr. Emmott and Mr. Owen will give brief addresses before their respective films are shown.

The Theatre doors will open at 8 p.m. Admission is free and citizens are urged to take advantage of witnessing these films as they are quite educational.

KIDDIES, YOUR ATTENTION, PLEASE

On Wednesday, May 1, you are invited to be the guests of Coleman miners at a FREE matinee in the Palace theatre starting at 2 p.m. In addition you will be given a dime to either keep or buy candy.

Parents can be assured that proper supervision will be given the children by a committee especially chosen for this purpose.

hope that these services will be as well attended, in proportion to our present population, as were those forty years ago.

Showing at

Palace Theatre, Coleman
SATURDAY and MONDAY
April 27 and 29

Cole's Theatre, Bellevue

"THE SPIRAL STAIRCASE"

Starring:

Dorothy McGuire - George Brent

A role so daring only the proven talents of a great actress gave Hollywood the courage to produce it... in all its flawless fascination!

TAX RATE WILL BE DECIDED WHEN DOMINION-PROVINCIAL CONFERENCE MEETS AGAIN

OTTAWA.—The co-ordinating committee of the Dominion-provincial conference is resuming its meeting and on the outcome depends such things as the rate of taxation for this year, the carrying out of reconstruction projects and the inauguration of new social services.

As matters now stand, the federal government does not know what revenues it can count on this year because the conference has been unable to reach final agreement on the division of fields of taxation.

The provincial premiers and federal authorities last met in February and it was understood the way was paved for final agreement at the coming meeting. It was learned the provinces agreed to vacate the income and corporation tax fields in favor of the Dominion, providing they were given exclusive jurisdiction in the succession duties field.

It was understood this agreement came about after the Dominion offered to increase from \$12 to \$15 the per capita subsidy to the provinces for vacating the tax fields. It was believed the Dominion gave no assurances it would vacate such taxation fields as gasoline, amusements, racetrack pari-mutuels, telephones, telegraph, electricity and others.

Consequent on the acceptance of Dominion taxation proposals is the carrying out of public works and social service projects.

For instance, the federal government offered to institute a national old age pensions plan of \$30 a month to all over 70 regardless of means and to share with the provinces the cost of pensions to the needy between 65 and 69. This proposal alone would cost the Dominion \$234,000,000 annually.

The Dominion also would share with the provinces and municipalities part of the cost of carrying out worthwhile reconstruction projects to provide employment. In addition it would give financial assistance in the inauguration of a national health insurance plan expected to cost an estimated \$200,000,000 when it is in full operation.

Finance Minister Ilsley has told the commons he does not know when the new budget will be presented, but assures close to the government say that it will not be until several weeks after the Dominion-provincial conference meetings.

PLANS NEW LEGION

TORONTO.—Regimental Sergeant-eade the Chinese so far," Col. Richards' service with the Canadian army, said he hopes to establish a Canadian Legion branch for Chinese-Canadian veterans, about 2,000 of whom served in the Canadian army.

LONDON.—An official of the National Union of Domestic Workers denied a report published in the Reynolds News that Buckingham Palace servants were enrolling in trade unions.

MINISTER OF AGRICULTURE IS SATISFIED MORE ADJUSTMENTS FOR FARMERS WILL BE MADE

OTTAWA.—Agriculture Minister J. G. Gardiner told the house just before the debate on the increase of 12½ per cent. in farm implement prices, that he was "satisfied that the adjustments which have been made are going to be followed by others."

"A good job will be done for the farmers so that in the next few years they will be able to pay off all their debts," declared Mr. Gardiner.

Mr. Gardiner said he had always been opposed to increases in farm implement prices but on this occasion too much emphasis had been laid on the figure of 12½ per cent. Actually that meant an increase of three-quarters of one per cent. on the farmers' cost of production on the basis that farm implements represent six per cent. of the farmers' cost of production.

Mr. Gardiner thought the finance minister had made a fair statement of the relations of between the farmers and the farm implement companies.

He denied, however, suggestions that he had heard around the corridors that the farmers are well off today, that they had reduced their indebtedness to some 20 mortgage companies from \$168,000,000 to \$66,000,000.

That didn't mean the farmers had \$100,000,000 more cash. It meant the farmer had worked long hours and long days to produce during the war at reasonable prices, and that he had thereby been able to pay into the treasuries of the mortgage companies \$100,000,000 of their loans. It meant the farmers still owed the mortgage

LIVING IN TENT

Only Way Veteran In Winnipeg Could Solve Housing Problem

WINNIPEG.—A tent partitioned into kitchen, bedroom and living room is the solution to the housing problem of Canada's tallest naval veteran, six-foot seven-inch Ingvald Peterson who has set up house with his wife and pure white hunky dog on the outskirts of Winnipeg.

Peterson, who served aboard H.M.C.S. Prince Henry during the war, received authorization to use his re-establishment credits for the purchase of the tent which is 16 by 20 with a 10 foot wall situated on the bank of the Red river. The new home of the naval veteran and his attractive wife from Three Rivers, Que., is provided with electricity for cooking and illumination by a power line running from a neighbor's home.

WILL BE WASTED

People Warned Against Buying Large Stocks of Flour

WINNIPEG.—Retail stores reported that many housewives are attempting to "stock up" on flour despite warnings that it would be wasted, not hoarded. Fear of higher prices has led to heavy purchases.

During the past two weeks "an alarming increase" has been noted in the purchase of flour. Consumers who previously were buying small sacks at regular intervals now are purchasing big bags in large numbers.

Dr. B. N. Smallman, Dominion entomologist, has warned that storage of flour and other cereals is the work of experts. Improperly stored flour is subject to insect infestation.

IN SHORT SUPPLY

Textiles Situation Not Expected To Improve Much For Year

FORT WILLIAM.—P. K. Heywood of Toronto, past president of the Canadian Retail Federation, said in an interview there is little chance of improvement in the textiles situation for a year.

Most retail goods are in short supply, and while some classifications will show improvement during 1946, it will be gradual.

Reconversion has been much slower than many people had hoped, as a result of a combination of reasons, including strikes.

OFFICIAL SECRETARY

LONDON.—Frederic Hudd, whose retirement as Canadian trade commissioner in London has been announced in Ottawa, will continue as official secretary of Canada House, a post he has held throughout the war, it was stated. It is understood that he will be acting high commissioner after the retirement shortly of Rt. Hon. Vincent Massey from that post, pending a permanent replacement.

companies \$66,000,000, and that being so, they could not be well off. Their second ambition was to clear off their farm implement debts.

If a farmer could clear off the mortgage on his farm and his farm implement debts, there was no better way to live than on farms. But not until he was clear of such debts.

Mr. Gardiner said that the recent rise of four cents a pound in butter prices was actually a 10 per cent. boost, which might be compared to the 12½ per cent. increase in farm implement prices. The farmer might be said to be on top now where he was at least getting by with the recent increase in the price of hogs of approximately six per cent.

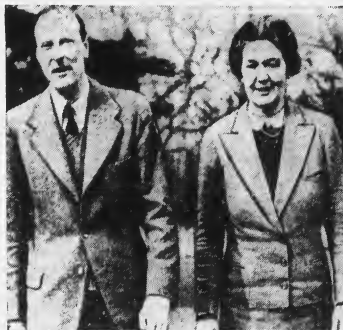

"The prices board," said Mr. Gardiner, "cannot make all its adjustments at once unless it applied the method of the Progressive Conservative opposition to close the whole business of price control up." He was satisfied that the adjustments which have been made were going to be followed by others.

The minister's statement followed a lengthy one by Finance Minister J. L. Ilsley, strongly defending the action of the prices board in increasing farm implement prices.

The board had acted after long and careful study of the question, said the minister, and the announcement had his approval.

TAKING NEW JOB

OTTAWA.—W. J. Bennett, for the last 10 years private secretary to Reconstruction Minister Howe, will become general manager of Eldorado Mining and Refining, Ltd., next May 1.

HIGH COMMISSIONER NO STRANGER TO CANADA—Canada's new high commissioner, Sir Alexander Cluttorchuck, who succeeds Rt. Hon. Malcolm MacDonald, is shown with Lady Cluttorchuck at their home at Oatlands Park, near Wellesley, Surrey. Sir Alexander was assistant under-secretary in the Dominion office in charge of economics and supplies when he was posted to Canada.

PRINCESS CONFIRMED

WINDSOR, England.—Princess Margaret Rose, who will be 16 Aug. 21, was confirmed by the Archbishop of Canterbury, Dr. Geoffrey Fisher, in the private chapel at Windsor Castle. The King and Queen, Queen Mary, Princess Elizabeth and the Duchess of Kent were present.

FREE MESSAGES

TORONTO.—The Canadian Red Cross Society announced the CBC international service is carrying a 15-minute weekly program to Austria for transmission of 50-word free personal radio messages from Canadians desiring to locate missing relatives in that country.

KING DECORATES CANADIAN V.C. WINNER—V.C. winner Major John W. Foote, of Port Hope, Ont., shows his medal to Pte. Ann Lawton, C.W.A.C., of Montreal, after being decorated by the King. Lieut.-Col. W. Gilling looks on.

ILLUMINATED RESOLUTION—Soon to be presented to the Secretary General of UN by Prime Minister W. L. Mackenzie King is the illuminated resolution, shown in the above photograph, which assures the adherence of the Fisheries Council of Canada to the Charter of the United Nations. The resolution, which was signed by leaders of the fishing industry representing all parts of the Dominion, was accepted on behalf of the Prime Minister by Honorable H. Francis G. Bridges, Minister of Fisheries (right) from C. J. Morrow (left) of Lunenburg, N.S., retiring President of the Fisheries Council of Canada. The presentation was made at Ottawa during the Council's first annual meeting.

CANADIANS ARE TOLD THEY MUST CONTINUE TO CARRY THEIR REGISTRATION CARDS

OTTAWA.—Dig out that old wrinkled registration card and put it in your purse or wallet because you still have to carry it with you wherever you go. The law says so.

However, few prosecutions have been instituted by the authorities since the first of the year against persons for failure to produce a registration certificate.

That was the information given the house by Labor Minister Humphrey Mitchell in reply to a question asked by Ross Thatcher, C.C.F. member for Moose Jaw. Mr. Thatcher wanted to know why the government still insisted on Canadians carrying their registration cards.

Mr. Mitchell said the principle reason was to assist the authorities in the rehabilitation of the large number of adults displaced by the war. The cards also assisted officials in clearing up unfinished cases and investigations of desertions from the forces, defaults and delinquencies under the national resources mobilization regulations and the defence of Canada regulations.

At March 31 this year there were 222 persons still employed in the national registration branch of the labor department. The total monthly cost to the government in employing those persons was \$30,000.

SAME SMILE—NEW HAT—New Easter bonnet adorned the smiling Princess Elizabeth as she received her official welcome to the city of Nottingham, where she attended a concert given by a children's choir and saw a Youth Week handicrafts exhibit.

THE NEWEST TOWN

Pulp And Paper Mill Being Built At Terrace, Ontario

FORT WILLIAM.—In a wilderness of forest and rock, construction crews, directed from temporary headquarters in Schreiber, are doing preliminary work on the \$15,000,000 Kimberly Clark pulp and paper mill project at Terrace, Ont., on the Aquasabon river, 10 miles east of Schreiber.

Activity is increasing daily at Terrace. A few days ago, six large prefabricated camp buildings were erected, and new workers, arriving on every train, are swelling the small Kimberly Clark staff who during the winter completed essential field data.

A year or so hence, trains will pull into the station of the new town of Terrace which Canadians will know as the site of one of the Dominion's largest pulp and paper mills. The lives of three thousand people may revolve about Canada's youngest industrial community.

MAY BE CHANGED

Request Made For Overhauling Of Income Tax Legislation

OTTAWA.—Evidence now being assembled by the senate income tax committee will form the basis for a report which may recommend overhauling of income tax legislation and the provision of a new appeal procedure. The committee started work last year.

Two of the most important briefs were those of the Canadian Bar Association and the Canadian Association of Chartered Accountants.

A common theme through a majority of the briefs received is the need for an appeal procedure which would provide simple, economical and speedy handling of disputes. Under the present legislation dissatisfied taxpayers may appeal to the minister. If they do not receive satisfaction from him they may go to the exchequer court and from there to the supreme court and privy council.

COMMENDS CONTRIBUTIONS OF CANADA AND AUSTRALIA TOWARD WORLD FOOD CRISIS

WASHINGTON.—Naming Canada and Australia as two of the main food-producing countries which have retained wartime controls to help feed the starving abroad Herbert H. Lehman, former director-general of the United Nations Relief and Rehabilitation Administration, accused the United States of "faulty planning and unrealistic measures" to avert world starvation.

Speaking before a world food

emergency mass meeting in Constitution Hall, Mr. Lehman delivered a blistering attack on the administration's attitude toward the food crisis. He resigned as UNRRA head following the appointment of former president Herbert Hoover to lead a fact-finding mission through Europe's starvation areas.

"UNRRA has enough facts," he declared. "But people cannot eat facts. How many facts do we have to give the supplying countries before they will give us sufficient food?"

He differed with Mr. Hoover and other administration officials who have declared rationing is not needed to enable the United States to share its plenty with the starving. He also differed with President Truman's statement that the crisis would be over in 90 days if the present emergency is met.

Mr. Lehman commented that the main grain-supplying countries were United States, Canada, Australia and Argentina.

"Only the United States was favored last year with bumper crops. The other three suffered a decline in production due to droughts and other factors," he said.

But they are making indispensable contributions to meeting the world food crisis. Australia and Canada have retained their wartime controls and the major proportion of their crops is being exported abroad.

"I repeat that these two great countries are still maintaining the wartime food controls."

"I want to be very frank. The United States government has not done everything it could to avert world disaster. This country—which alone has the resources to save the day—made a most unfortunate decision in abandoning rationing late in 1945."

He demanded immediate orders setting aside a certain percentage of American grain for export even at the expense of some inequitable civilian distribution because "once this wheat gets onto the store shelves in the form of bread, it does not make much difference whether we decide to buy an extra loaf or not."

The Ladies Auxiliary of St. Paul's United Church will hold their annual

Anniversary SUPPER

on
Sat., April 27
in the Church Club Room
Supper from 5 to 6.30 p.m.
Admission: Adults - 50c

Tom Grey Says It's a Fact!

And We Can Prove It!

Although more than a dozen states have towns named Hollywood, there is now no town or city in California bearing that name. The former California town of that name was legally annexed by Los Angeles in 1910 and its post office is an independent station of the Los Angeles office. 1. "Uncommon Knowledge" Geo. W. Stimpson.

Just as Hollywood is famous for its stars, we are famous for the best service at the right price.

NOTES AND COMMENTS

INDISCRIMINATE SHOOTING

There are a number of young men in town who are guilty of indiscriminate shooting. Complaints have been received from citizens who have gone for walks to the dam while a complaint was received Wednesday morning of youths shooting nearby the cemetery.

While steps in the form of cadet training are now in progress to teach youths the art of safety first, the time is yet too short for these youths to have become firmly acquainted with safety first rules.

They take a 22 rifle, go a few hundred yards out of town and let fly at the first gopher, bottle or what have you they can put their sights on, having little or no regard to who may be in the background and within range of a wild bullet.

This is too dangerous a practice for the authorities to let go unchallenged. A teen aged girl lies critically ill in a nearby prairie town because of a wild bullet which hit her and lodged in the abdomen. We do not want similar accidents here. Possibly the united efforts of our police with that of the school teachers would have a tendency to make the guilty parties wake up to the dangerous practice in which they are indulging.

PARALLEL PARKING

It would appear that the time has now arrived when parallel parking should be adopted on main street.

Especially on Saturday afternoons and evenings is this true when scores of cars are cruising along the main street and parking whenever the opportunity affords itself. Main street is much too narrow to handle this traffic adequately. When there are cars parked on both sides of the street an two cars trying to pass each other in the middle of the street the margin of space between all four cars is negligible.

Parallel parking is possibly the only solution. It would mean that cars would be crowded onto our second streets, but that places no hardship on any motorist. The town would then gain more adequate and much needed space on main street for traffic.

The situation will be aggravated more and more as the fine weather comes and an increased volume of new cars take to the road.

Be Careful With Fire In Forests

Spring is the season of hope. For the Forest Rangers who watch over the Provincial forests on the east slope of the Rocky Mountains and in the Northern Alberta Forest District it is a season of both anxiety and hope.

As the fire hazard rises they scan the horizon with anxious eyes for they know the fearful havoc a forest fire can create. They know the immediate result is the destruction of wild life and sometimes human life. They know of the direct loss of revenue to the Province in dues and royalties and the much greater indirect loss to the people of Alberta in wages, goods and services. They know about the lowering of the water-tables and spring floods and soil erosion. It is not to be wondered that they are anxious.

They hope for the hearty co-operation of all citizens and particularly of settlers near the edge of the forests who are clearing their land and must burn their debris. They hope that throughout the year trappers, campers, lumbermen and all other users of the forest will be careful with fire. We appeal for the assistance of every Albertan to help keep the forest green.

AT THE PALACE SATURDAY AND MONDAY

The movie's interest in diseased minds as a basis for melodrama has flowered this month in "The Spiral Staircase," an RKO film without one major character who can be classed as normal. Its scene is an ancient house on a stormy night. Its plot is devoted to discovering which of several psychopaths is trying to murder Helen, a mute and certainly inoffensive maid servant. In this role, actress Dorothy Mc-

HE'S A COMIN'

During the past few years there has been an aggressive campaign by Pass fishermen and hunters, especially in Coleman, for a fish and game guardian. It is being whispered that such a man is scheduled to locate very shortly in the Pass.

His presence here is urgently needed as it has been revealed by the president of the Crows' Nest Pass Fish & Game Association that there has been inhuman slaughter of cow elk in the local hills during the present season. The season on elk has still another week to go and the urgent message sent to the provincial department on Wednesday morning is not expected to improve matters at the moment, but will be considered when the game seasons are studied next year.

Why some so-called hunters can not resist the temptation to kill when they see a cow elk, especially when she is heavy with calf, is beyond human reasoning. They are not sports—they are nothing more than cold-blooded killers.

TOURISTS STARTING TO ROLL

There has been an increase in the number of British Columbia cars, passing through the town. Their license plates vary quite sharply in serial numbers proving that some at least are coming from much farther afield than others.

Alberta, along with other provinces, has started a courtesy campaign to the tourist. No doubt Albertans will extend every courtesy to the tourist, whom they realize brings new wealth into the country. However, the greatest tribute we could pay to the tourist is black-top highways that will make driving a pleasure mile after mile.

If the Crows' Nest Pass is to have the privilege of extending a hand of welcome to the tourists its organizations will have to maintain steady pressure on the provincial Public Works department to hard-surface the Pincher Creek to Crows' Nest road. In its present condition its reputation will not take long to be broadcast far and wide and the lucrative tourist trade will be channeled into other highways.

The Pass must keep driving constantly to get proper hard-surfaced highways. We cannot afford to relax our efforts if we hope to ultimately gain success.

Guire gives a remarkably good performance, although she speaks only nine words in the entire film. The picture builds to a tense climax when those words are uttered. On the way occur enough stomach-clutching moments to make "The Spiral Staircase" the best thriller in a long, long time.

Many Food Parcels Leaving Coleman For Europe

A good number of parcels going forward through the local post office addressed to European countries. Since the service has been resumed relatives and friends have been taking advantage of sending certain foodstuffs and articles of clothing to such countries as Poland, Czechoslovakia, Hungary, Italy, Denmark, Belgium, Holland, France and other parts of Europe. The parcel post limit of weight has been eleven pounds, but this week the weight has been extended to twenty pounds, which will enable senders to increase the amount of articles to be sent. The twenty pound rate applies to certain countries only. Parcels should be securely wrapped in cotton. Owing to the number of times each parcel has to be handled, the cotton wrapping is most serviceable. If a parcel is worth sending it is worth packing securely.

IMPORTANT ANNOUNCEMENT

Due to Tuesday, April 30, being the evening on which the Masonic lodge is sponsoring its annual dance it has been found necessary to postpone the miscellaneous shower, scheduled on that date for Miss Margaret Vincent, to that of Wednesday, May 1, at the same hour and same place. Those having already received their invitations are asked to note change in date.

FUNERAL OF ELIZABETH TRUCH HELD LAST WEEK

The funeral of Elizabeth Truch, six-year-old daughter of Mr. and Mrs. Peter Truch was held on Wednesday evening of last week from the family residence. Rev. Father L. Sullivan conducted the service, interment taking place in the local Catholic cemetery.

Palbearers included Louis Kratky, Frank Kuran, Vincent Robotka and Stanley Osioy. The Flower Girls included Elizabeth Ballak, Esie Sikora, Venna Cayen and Mary Dorushak.

CARD OF THANKS

We wish to express our thanks and appreciation to Dr. Hope Gill for his care and comfort to our baby, to those who sent floral tributes, mass cards and cards of sympathy, to those who loaned cars, to the palbearers and flower girls and to all those who helped in any way during our recent bereavement.

Mr. and Mrs. Peter Truch

FLORAL TRIBUTES: Auntie Jean and Uncle Mike, Calgary; Auntie Galaza and family, Calgary; Uncle Fred, Mother and Dad; brother and sister; Caroline; Mr. and Mrs. Steve Liska; Mr. and Mrs. Martin Ballak; Mr. and Mrs. Frank Baruta; Mr. and Mrs. J. Psikla, Blairmore; Mr. and Mrs. J. Yurasek; Grade five pupils; Mr. and Mrs. Tom Hill.

CARDS OF SYMPATHY: Mr. and Mrs. Dick and Isobel; Mr. and Mrs. J. Psikla and children; Alice and Chris. Carter, Hillcrest Mines; Mr. and Mrs. Tom Hill; Mr. and Mrs. Morrison and family; Mr. and Mrs. Martin Ballak and family; Mrs. Thomson and Bert, Calgary; Liska family; Auntie and Uncle, Johnny and Rose, Mikie and Ernie, Calgary; Mr. and Mrs. G. Zinook and family; Mrs. McLean.

BANKING IN ACTION

The Canadian Bank of Commerce has for many years assisted in the development of logging, lumbering and the pulp and paper industry across the Dominion. Its branches, whether in old established communities or in the new town sites, serve the many banking requirements of companies and individuals associated with these industries.

BANKING IN ACTION is manifested in the crash of falling trees; in the rush of logs, as the lumberjacks break the jam and speed the timber on its way; in the scream of saws, as busy mills convert it into planks, beams and scantlings. Logging and lumbering provide work and wages for thousands—in the woods, the mills, the construction industry. The stream of wealth thus flowing across Canada is an example of Banking in Action.

What every housewife should know...

about SUGAR FOR CANNING

There is a world-wide shortage of sugar. Last year world sugar production was twenty-five percent below 1939. Reasons for the decrease are:

- Destruction of the sugar industries in Java and the Philippines.
- Shortages of labour and fertilizers in many sugar-producing countries.
- Last year's drought in the Caribbean area, especially Cuba.
- Damage to European sugar beet fields.

World sugar supplies are pooled for the benefit of the United Nations. Canada, the United States and Great Britain are allotted an equal share of sugar according to population. Available supplies must also be shared with other countries.

TEN POUNDS OF CANNING SUGAR PER PERSON

This year's canning sugar allowance is ten pounds per person — the same as last year. Instead of special canning sugar coupons, ten additional green "S" coupons are being made available for the purchase of canning sugar.

S8 to S12 inclusive become valid on May 2nd; S17 to S21 inclusive on July 4th. Each coupon is good for the purchase of one pound of sugar.

The ten "S" coupons for canning sugar are in addition to

the "S" coupons which regularly become valid each month for the purchase of sugar and preserves.

Those who do not wish to do home canning may use the extra coupons to buy commercially packed, jams, jellies, canned fruit, etc., or sugar to supplement the regular ration.

The ten "S" coupons for canning sugar need not be used immediately they become valid. You will be given ample notice of their expiry date.

THESE ARE YOUR "S" COUPONS FOR EXTRA SUGAR

VALID MAY 2

Any valid "S" Coupon, including those shown here, may be used to purchase sugar for canning, or the amount stated below of preserves.

The green "S" coupons S8 to S12 and S17 to S21 are in addition to the "S" coupons which regularly become valid each month for the purchase of sugar and preserves. They are validated to make available enough sugar for home canning or for other household uses.

"S" COUPON CALENDAR

| | |
|--------------------------|---------------------------|
| 4th April . . . S5 | 20th June . . S15 and S16 |
| 10th April . . S6 and S7 | 4th July . . . S17 to S21 |
| 2nd May . . . S8 to S12 | 18th July . . S22 and S23 |
| 16th May . . S13 and S14 | 15th August . S24 and S25 |

VALID JULY 4

ALTERNATIVE VALUE OF ALL "S" COUPONS

| | | | | |
|----------------------------|----|----------------------------------|----|--|
| 1 lb. of sugar | OR | 24 fl. oz. jam, jelly, marmalade | OR | 2 qts. molasses |
| 4 lbs. honey | OR | 80 fl. oz. maple syrup | OR | 30 fl. oz. blended table, cane or cane syrup |
| OR 2 lbs. honey butter | OR | 4 lbs. maple sugar | | |
| OR 40 fl. oz. canned fruit | | | | |

AMOUNT OF SUGAR USED IN CANNING

Each housewife may use her canning sugar to fit the needs of her particular household. A common method is to allow 1/4 lb. sugar for each quart of canned fruit; and 1 1/4 lbs. sugar for each quart of jam or jelly.

SUGARLESS METHOD OF CANNING FRUIT

Many home economists recommend the sugarless method of canning fruit. Sugar can be added during the winter as the fruit is used. If you have not a copy already, write the Department of Agriculture, Ottawa, for "War-time Canning" pamphlet.

THE WARTIME PRICES AND TRADE BOARD

SUGAR IS SCARCE — USE IT SPARINGLY

"Meet my neighbour... my rainy-day expert"

"Pretty swanky, eh?" said Henry's neighbour, eyeing the new sunroom. "How come? Did you win some money at the races?"

"Meet my neighbour . . . my rainy-day expert," said Henry. "As my life insurance man, he helped me finance this new sunroom fifteen years ago."

"Fifteen years ago!" exclaimed the builder, glancing from one to the other.

"Years ago he gave me a new slant on life insurance—"Provide for the rainy days . . . then you can enjoy the sunshine." So that's the way I budget. My life insurance premiums are the first call on my income. That means I don't have to worry about Kitty and the kids. Then I figure current expenses, right down to so much a week for movies and ice cream cones. And then . . . whatever I can bank over and above that is velvet. When it mounts up, Kitty gets a new gadget for the kitchen, or we smarten up the house. This new sunroom comes out of our velvet."

There is nothing like life insurance to give a man peace of mind. He can enjoy spending if he is sure that the future of his loved ones is secure. Everyone wants independence and protection for his family . . . and when that is insured, a man can indulge his whims.

Near you, wherever you are, is a neighbour in the life insurance business. Ask him for advice in planning your future. It is good citizenship to own life insurance.

A message from the Life Insurance Companies in Canada and their agents.

WORLD FOOD EMERGENCY

Starvation threatens in the Far East and hunger in Europe. We are sending food. We must send more. The need is now—until harvest!

We must help feed a hungry world

A serious shortage of food in certain areas of the world was expected, but crop failures in many areas, and lack of distribution facilities, seeds, and tools in others created a food shortage of alarming proportions. Only immediate deliveries of staple foods can sustain the hungry millions.

PRODUCE AND SAVE — MORE

Since 1939, our per capita record of food exports has exceeded that of any other country. Food production has soared. Canadians have eaten well in spite of war. Today, the seriousness of the world's food situation calls for even greater efforts. We can increase our food shipments and still have enough for our needs.

THIS IS WHAT WE CAN DO

We can ship more WHEAT, FLOUR, MEATS, CHEESE and EGGS if as great quantities as possible are made available for shipment during the next four months.

PRODUCERS! — DELIVER TO MARKET.

CONSUMERS! — BUY LESS OF THESE FOODS — BUY ONLY FOR IMMEDIATE NEEDS—WASTE NOTHING—PLANT A GARDEN—SUBSTITUTE VEGETABLES FOR AS MANY OF THESE VITAL FOODS AS YOU CAN.

This will increase supplies at storage depots, thus freeing additional needed foods for the world's hungry. There can be no permanent prosperity for us... or anyone... while hunger and despair afflict large areas of the world.

Share with the hungry!

Fallow Figures On Road Costs Held 'Fantastic'

AMA Says Millions Taxed From Motorists Not Spent on Roads.

Claims that \$17,500,000 has been received by the provincial government during the past five years from motor taxes, over and above all expenditures, and has been diverted from roadwork to other purposes, was made today in Calgary by the Alberta Motor Association in a statement prepared by James Cleave, president of the association.

The statement was a reply to announcements made by Hon. W. A. Fallow, minister of public works, at the recent session of the legislative assembly that receipts from automobile licences had been exceeded by the expenditures on road repairs and building projects in recent years.

The association statement follows:

"Figures were recently published from the public accounts showing that apart from debt charges, the total revenues received for motor taxes by the provincial government from 1922 to 1945, and as estimated for 1946, exceeded road expenditures by over \$25,000,000.

"At commencement of the year 1931, which was the year taken by the minister of highways for the purpose of his recent statement to the legislative assembly, there was an unpaid debt for road purposes of almost 8½ million dollars, including interest. That debt, and all subsequent expenditures in excess of revenue had been fully repaid to the province with 5 per cent interest by March, 1940.

"Since March, 1940, there has been collected in motor taxes, according to figures supplied by the department of public works, 11½ million dollars more than the total expenditures on roads. The figures of the department, however, disclose a glaring error, because there is included in the expenditures for 1940-46, over six million dollars for interest and sinking fund, although the entire road debt had been fully repaid by March, 1940.

"The net result is that since March, 1940, eleven million and one-half dollars, plus this six million dollars, a total of 17½ million dollars has been received by the government from motor taxes, over and above all expenditures, and has been diverted from road to other purposes.

Less Than Revenue

"In his recent statement, Mr. Fallow told the legislative assembly that from 1931 to 1945, 79½ million dollars had been spent for highway purposes, and expenditure of nearly 8½ million dollars greater than the revenues. The motor association has seen the figures as supplied by the minister, on which this statement was based.

"These figures show, however, that, correctly added, only 72 million instead of 79 million had been expended, an inaccuracy of over 7 million dollars. This difference alone, shows on the minister's own figures that the expenditures over the period were 3½ million dollars less than the revenues.

"The figures also show that included as expenditures were over 16 million dollars for debt charges between 1931 and 1940, whereas the unpaid debt charges in 1931 as appears from the McGillivray Commission Report were only about half that amount, and all of this with interest was repaid by 1940.

"The figures supplied by the minister also show that from 1940 to 1945 he included as road expenditures over six million dollars for alleged road debt charges, which in fact did not exist at all. Worse still, nearly half of this six million dollar figure admittedly, does not appear in the public accounts at all.

"The result is that go far from the minister's statement being correct, the true facts are that over 17 million dollars have been collected from motorists during the 1931 to 1945 period, more than was spent on the roads. In addition over 5 million dollars in grants for relief workers were also included in the minister's figures for road expenditures, although they were provided by the Dominion Government and not by the province.

"The total revenues collected in excess of provincial expenditures from 1931 to date are thus increased to over 22 million dollars.

"It is felt by the Alberta Motor Association that its public repudiation of the minister's figures as

fantastic, is thus fully justified, and the association notes with approval and gratitude, the neither the premier of this province nor any other responsible minister in any way concurred in statements such as those above referred to, which were at complete variance with the facts."

People shop where they are invited—that's why it pays to advertise.

T. B. Questions and Answers

Q. Does coughing up blood always mean tuberculosis?

A. No, this may occur in other diseases of the lung, such as bronchiectasis, cancer, abscess, etc. When no other cause can be found, tuberculosis should be suspected.

Q. Are there any symptoms that are always indicative of TB?

A. No. Cough, expectoration, pain, hemorrhage, etc., simply point to a disease of the lung. But hemorrhage or pleurisy should always make one suspect tuberculosis unless other causes are found. Fever, night sweats, loss of weight, etc., may be present with any toxic disease, but when tuberculosis is present they indicate activity.

DON'T SABOTAGE

OUR VALUABLE FORESTS...

In Alberta we have a great heritage in our forests and streams. If our forests are blackened and ruined by fire instead of forest industries supplying the building material we require and providing a living directly and indirectly for thousands of people, instead of our shady playgrounds, big game, fur bearing animals and our pleasant streams, what are we going to have? A ruined industry, roaring torrents in the spring and dry water courses in the

summer, soil erosion and all the other ills that occur in any country where the balance of nature is upset by the destruction of a great part of the forest.

Your local ranger contends that a lot of good citizens live in his district. He takes this opportunity to thank you for the co-operation you gave him last year and he is sure the more you realize the situation, the more he can count on your co-operation and assistance.

FOREST SERVICE

WHO HAS ALL THE MONEY HE WANTS?

Joe Green is a steady worker with a steady job. He has always met his bills. But now, because of sickness, he suddenly finds he is short of ready cash... tomorrow he will go to his bank and arrange a Personal Loan.

You may find yourself in the same position as Joe Green. Anybody may! Personal loans through your bank make it possible for you to anticipate future earnings. This is an essential part of its services.

Such loans may be obtained to meet financial needs of many kinds; to lay in ahead a winter's supply of coal, to pay municipal or other taxes in time to earn the discount, to provide for home repairs, to send a boy or girl to college, to consolidate debts—indeed for any sound reason.

Bank credit runs through all personal life and commercial life. It operates silently and unobtrusively. You take it for granted. That is the way Canadian banking works.

April and May
Dangerous Months
For Forest Fires

Spring is welcomed by many people as a season of buds, birds and babbling brooks, but among Alberta's forest rangers it is greeted with more jitters than joyous whoops.

The reason is not hard to find. Experience has taught guardians of Alberta's forest wealth that the most destructive forest fires break out in April and May. The fall months of September and October are also considered extremely hazardous, but spring is the time when rangers expect to see fires "bustin' out all over."

This year, as in previous years, Alberta's forest rangers are stressing the virtue of fire prevention. Real prevention, they point out, lies in mere observance of the law. It lies in methodical care of fire—whether the fire be in the fields or the forests.

Badly burned forest lands are ruined as a local and national resource. The land on which stood flourishing trees become as barren as a desert. It supplies no lumber, no game, no hay, no building lumber or fence posts no fuel, and no cover for migrant game.

In districts designated as fire zones, residents are warned that a permit is necessary to burn over land between April 1st and December 1st. These can be obtained from the local fire ranger or municipal office. Make sure of permits—then, when one is granted, make sure your fire is under control.

The Churches

ST. PAUL'S UNITED CHURCH
11 a.m. Morning worship. We will have as our Special Anniversary Speaker, Rev. Bainbridge, of High River, president of the Alberta Conference. This marks the fortieth anniversary of the opening of our church.

Following the morning service a congregational meeting will be held for the purpose of choosing a minister for our church.

SALVATION ARMY NOTES

The Crows' Nest Victory Party will arrive first on Friday, April 27. Who are they? The instrumentalists from Calgary, under the leadership of Major Norman Buckley, of the Public Relations department.

This group is out in the interests of the Kingdom of God and will also give all a good time. They leave Calgary on Thursday for Lethbridge. They arrive in Coleman on Friday enroute to Fernie. On Friday night Fernie will have this group for a big Salvation meeting. They will return to Coleman on Saturday. Special open air meetings will be conducted on Saturday in Bellevue, Blairmore and Coleman. Saturday evening will mark a great Youth Rally in the Salvation Army hall at 8 p.m. The public is invited to this. Sunday meetings will be conducted at 11 a.m. and 7:30 p.m. At 3 p.m., a special musical program will be held in the United church, with the United church junior choir taking part.

T.B. QUESTIONS ANSWERED BY THE ALBERTA TUBERCULOSIS ASSOCIATION

Q. Is there any special time when a tuberculous person has fever?
A. Rise in temperature in the tuberculous usually occurs between

3 and 8 p.m. Occasionally the maximum elevation may occur at other times.

Q. When a person has pleurisy with effusion, does that mean T.B.?
A. No, but when no other cause can be found, tuberculosis must be suspected. Other infections of the lung may be accompanied by wet pleurisy.

Every
Wife
should
answer
these
questions:

Without you, could your husband provide the RIGHT care for the children? Probably not without extra money to make some suitable arrangement... which is good reason why you, as his partner in the business of running the home, should carry insurance on your own life. In any partnership, protection against sudden emergencies is important...

Does it matter WHICH life insurance company you choose? It does matter! Life insurance companies are much alike as to policies and rates, but actual long-term results vary widely. We invite you to compare The

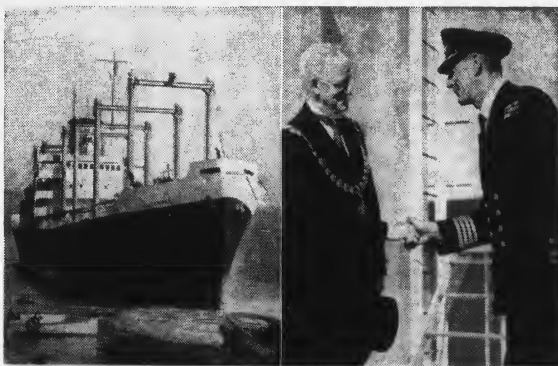

Mutual Life of Canada's record with that of any other company. Evidence of the satisfaction of Mutual Life policyholders is furnished by the fact that whole families and succeeding generations have entrusted their life insurance programs exclusively to The Mutual Life, and each year approximately 35% of its new business comes from policyholders. Ask your Mutual Life representative to explain the special features of this Company.

BEAVER SHIPS RETURN: Canada and the United Kingdom were linked again by the famous Beaver line when the Canadian Pacific's new cargo liner Beaver docked at Saint John, N.B. in March at the end of her maiden voyage from Liverpool. The turbo-electric fast freighter in making her initial crossing of the North Atlantic in less than seven and one half days demonstrated the service which will enable her and three sister ships to replace the original five vessels of the Beaver class which were lost during the war. A fine example of the latest developments in marine design and engineering, the Beaver features widespread use of electrical installations. Her propelling unit is turbo-electric, in which steam generated electrical power at high voltage drives the motor which turns the propeller shaft. Electric winches also are used to speed the transfer of cargoes between

ship and shore. Almost one quarter of the huge cargo carrying space on the Beaver is refrigerated for safe transport of perishables. Electric fans ventilate all the holds, while "tell-tales" and long distance recording thermometers enable the ship's officers to keep a close check on the cargoes, at all times. Other peacetime uses of "war-baby" developments in use on the ship include radar, gyro-compass, and the latest radio telegraph communication sets. The new 10,000-ton vessel was given a rousing welcome upon her arrival at the busy port where she discharged 6,000 tons of cargo, some of it rubber from Singapore, and loaded Canadian farm produce—including meat, eggs and flour—for the United Kingdom. At right, Mayor J. D. McKenna of Saint John congratulates Captain B. B. Grant on the return of the Beaver line to the North Atlantic fast freight service.

WORLD HAPPENINGS
BRIEFLY TOLD

Former members of R.A.F. crews may apply for their flying log books for personal retention.

The 16th century windows of King's College chapel at Cambridge, Eng., removed during the blitz, now are being replaced.

The King recently sent a 14-foot oak tree sapling to be planted in the Garden of Remembrance in Kentish Town parish church.

The results of a census taken in Poland last Feb. 15 shows a population of 75 persons per square mile, Warsaw radio announced.

The original manuscript of "Alice in Wonderland" sold in New York for \$50,000 to A. S. W. Rosenbach, collector of rare books.

Twenty-eight girls and 12 men from British universities have gone to France as guests of families in university towns under a students' exchange scheme.

Mayor A. W. Curtin has sent 15,000 "be courteous" letters to children of Hendon, England, whom he says have been "aping" the tough-guy training of soldiers.

The King's Prize for the best plowman was won recently at Langley, Buckinghamshire, by F. Wakefield, aged 61, a plowman at Clippenham Court Farm, Slough, for 31 years.

Employees of a British railway estimate 2,150 allowances which extend 400 miles by the side of the railway tracks. These yielded a record harvest last year, valued at \$90,000.

Tom Johnston, chairman of the Scottish tourist board, said recently that Scotland should make all the savings required for tourists. "We don't want any to be bought from Japan or Birmingham."

"Whitewater Jack"

Man Who Is Interested In The Progress Of The West

That is certainly a very appropriate name with which John R. MacNicol, Toronto M.P., has been dubbed, "Whitewater Jack". Here is a public servant of Canada, who does not confine his interest to his narrow little urban constituency, Toronto-Davenport, but is interested intensely in the whole of Canada.

On foot, by horseback and by steamboat and canoe, he has personally surveyed the northern reaches of the Dominion and he wants a great irrigation plan adopted for Saskatchewan and Alberta. We spent \$400,000,000 or more per month on war; we can spend a like amount to make the great area of these western provinces the most productive on God's green earth.

To quote from the Ottawa news despatch: Mr. MacNicol, who talks of water conservation with a vision, says, "I don't prefer to build up big dams, but preferably with, minus up his creek, for that is what it has become."

"Where has the water gone to?" referring, of course, to the mighty Saskatchewan. "It has all gone down to the sea without having done any good to the parched prairies."

"These parched prairies, if they are given sufficient water, will grow anything. There is no better land in the world. In some places it is a little alkaline. But the vast proportion of it contains the necessary chemicals to produce crops of all kinds in abundance, provided it gets water. It is a part of my purpose to see that it does get that water."

It is of interest to note that in his resolution before the House, Mr. MacNicol was strongly supported by the leader of the C.C.F., M. J. Coldwell. What the plan means simply is the harnessing of great river streams to make more fertile the lands of two great provinces. They have done the same thing in certain States of the Union to the South; Mr. MacNicol is urging the same thing for his own country.

In his off time from duty in Parliament this man has travelled to the great North and West; he has investigated, and has brought a keen scientific mind into play, has imagination and foreseeing the future which might well be, for his country's welfare. Mr. MacNicol cannot be young as years go, but he leads the strenuous life and there is no doubt that he can tell the Prime Minister much more about the constituency of Prince Albert, which Mr. King represented in the House for many years, than the P.M. ever knew himself. Mr. MacNicol is a great Canadian. St. Catharines Standard.

NOT QUITE BANKRUPT

The Lincoln, Neb., State Journal tells this story: The dinner started with cream of tomato soup. The main course was a giant rib roast, with mashed potatoes and broccoli. Soft rolls of white flour were served, with two patties of butter to a plate. Dessert was apple pie with cream. There was coffee with cream and sugar. The speaker cleared his throat. "We are a bankrupt nation . . ." he began.

Ducos of France patented a device for showing motion pictures as early as 1864.

TRADE RESTRICTIONS

Tariffs Impose A Burden On The People Of Western Canada

The governments of Alberta, Saskatchewan and Manitoba have united in a plea to the federally-appointed Trade and Tariff Commission for removal as rapidly as possible of unnecessary restrictions on world trade.

If necessary, a 3,500-word brief addressed to the committee and signed by Premiers E. Manning, T. C. Douglas and Stuart Granville said, Canada should take unilateral action toward that end.

The brief, prepared by the economic representatives of Social Credit, C.P.F. and Coalition administrations, reviewed the "fundamental importance" of exports to Canadian economy, the dependence of prairie agriculture on exports to the United Kingdom and the United States and the effects of trade restrictions on production and living costs.

It turned then to expression of the "strong conviction of the citizens of our provinces" that immediate action should be taken toward removal of existing restrictions.

Changes brought about by the war, it said, had in no way lessened the traditional argument against trade restrictions as a source of increased costs to Canadian consumers and exporting industries. Instead, there appeared to be considerably less grounds for the traditional fears of Canadian industry that any reduction of its tariff-shield and other trade restrictions would threaten profits if not existence.

It voiced approval of steps already taken to reduce tariffs on farm machinery and other items which entered into production costs of Canada's exporting industries and asked further steps in that direction be recognized as the first objective in revising tariff schedules. Equal importance was attached to removal of restrictions on commodities which entered directly into the living costs of Canadians.

Traditional arguments of protectionists in Canada, the brief said, had been that tariffs were required to protect the "infant" industries against competition of the more mature, large-scale industries of other countries, particularly the United States. The result had been "much more of restrictions on commodities which imposed a tremendous burden on the people of the prairie provinces."

Whatever validity the infant industry argument might have had, Canadian industry had grown up since the early days of settlement, which normally is steady enough to bounce radio waves downward toward the earth and thus make long distance broadcasting possible.

But the on-coming clouds cause rapid changes in the height of the layer, thus changing the distances over which broadcast waves must be reflected for transmission from station to station.

The scientists said the clouds are not to be confused with cosmic rays. They are the result of bombardment of the earth's atmosphere by bursts of electrically charged corpuscles, which are like streams of "dust" from the sun.

"The discovery indicates that the ultra violet light coming from the sun is not the only means of producing the ionized layers of air whose radio waves whose height above the earth are fundamental considerations in man's radio undertakings," the scientists said.

Buy War Savings Stamps regularly.

The remarkable thing about this light ray, its originators say, is that its waves do not carry its length by more than 0.00000150 of an inch.

Development of the light source by Dr. Jacob Wenus, of the United States Navy electronics research laboratory at Berkeley, Calif., and Dr. Luis W. Alvarez, one of the atomic-bomb scientists, was announced by the University of California.

Wenus and Alvarez used the cyclotron to transmute the gold into mercury, thus reversing the favorite project of the medieval alchemists, who tried hard but failed to turn mercury into gold.

Takes Cadet Salute

Princess Elizabeth Officiates At Ceremony In London's Hyde Park

Princess Elizabeth, wearing a navy blue coat and hat, took the salute from between 5,000 and 6,000 army cadets at a march past in London's Hyde Park.

With the princess at the saluting base, where her personal standard was flying, was Maj.-Gen. R. E. Urquhart, who commanded the first Airborne Division at Arrhen and who now is director of the Territorial Army and the Army Cadet force.

Contingents in the parade represented every country cadet association in the United Kingdom.

At the end of the parade the various corps' representatives were presented to the princess.

ONE BIG ITEM
The biggest item of cost in the production of eggs is feed. Normally, feed makes up from 50 to 60 per cent. of the total cost with labor figuring about 20 per cent. of the total.

The Empire State building in New York has seven miles of elevator shafts.

NURSING CONSULTANT ONCE POOR FARM WIFE—Mrs. C. A. S.

Abernethy, who was appointed consultant and adviser in nursing services to the UNRRA in Greece, and recently left for that trouble spot in the international situation, was eking out a precarious living working with a husband for a few dollars a month on Saskatchewan and Manitoba farms during the depression years of the '30s. She replaced Mrs. Tray in Greece, killed in a plane crash while on holiday in Italy. Since 1939, Mrs. Abernethy had been a member of the public health service of Newfoundland, where her constructive work during a period of depression, followed by an economic rise and military occupation boom, won wide recognition. Later she took charge of a hospital in northern Newfoundland, near Labrador, formerly in charge of two doctors, and for three years, with a staff of five, she was responsible for the medical administration of a large territory. Her success in Newfoundland made possible her present post with UNRRA.

Mrs. Abernethy travelled like this in Newfoundland.

Sun Spots

How They Have Been Found To Effect Radio Transmission

Science found a new explanation for the tricks that sun spots play on radio communications.

Three scientists at the Carnegie Institution of Washington announced the discovery of electrically-charged gases which speed from the sun into the earth's atmosphere and seriously disturb the travel of radio waves.

The gases originate in or near sun spots and race toward the ionosphere, the upper layer of the earth's atmosphere, at about a mile a second. The ionosphere then undergoes marked changes which result in the fading or disappearance of radio signals.

The scientists were H. W. Wells, J. W. Wells and D. E. George. Using new techniques for observing phenomena in the atmosphere, they made their investigations at the ionosphere laboratory at Kensington, Md., during the magnetic storms which disturbed radio communications March 25 and 26.

They said the disruption begins when the clouds rush into the E-layer of the earth's atmosphere. The E-layer is a layer of electrically charged air which normally is steady enough to bounce radio waves downward toward the earth and thus make long distance broadcasting possible.

But the on-coming clouds cause rapid changes in the height of the layer, thus changing the distances over which broadcast waves must be reflected for transmission from station to station.

The scientists said the clouds are not to be confused with cosmic rays. They are the result of bombardment of the earth's atmosphere by bursts of electrically charged corpuscles, which are like streams of "dust" from the sun.

"The discovery indicates that the ultra violet light coming from the sun is not the only means of producing the ionized layers of air whose radio waves whose height above the earth are fundamental considerations in man's radio undertakings," the scientists said.

Northerner Aroused

Thinks People Make Altogether Too Much Fuss About Cold

All this publicity about the Canadian Army's "Operation Muskox" is both humorous and preposterous to J. Oeston Oglesstone, of Moose River, Ontario. Mr. Oglesstone, who is a section foreman on the T. & N.O., regards the whole business as an implied rebuke to the ferocity of the north.

"I can show you right here people living in common tents and I never hear of any one freezing," he says in a letter to the Ottawa Journal. "I was born and raised near North Bay, lived and worked in the North. It is not so terrible living in this north country. It is very healthy."

Even though we do live 44 miles south of Mooseport, at James Bay, we have a good garden at the T. & N.O. railway section house each year."

Although the majority of Canadians might never think of it that way, Mr. Oglesstone has made his point. After all, they have been combating the Arctic Circle now by dog team and plane for many moons, and little has been thought of it, except to build it up as tourist bait, and establish the dubious virility of Jack Canuck.

So why, as Mr. Oglesstone suggests, should there be such a to-do about people who are sleeping in "tents lined with nylon and heavy mats on the floor, with robes on top of that, then sleeping bags and oil burner stoves or heaters?"

"Operation Muskox" can only reduce the hurt it has done to the North by bringing back these wonderful tales of yellow flowers and red berries in the barrens; and Shaghi-La valleys and the muskox itself feeding in them under the Arctic twilight, that have so long been offered to the south. The army should know how to do it.—Hamilton Spectator.

DIFFERENT NOW

A letter posted in Dublin in June, 1941, by her sister was recently delivered to Mrs. Fred Driver of Wimbledon, London. It spoke of a grocer "who would not cut a few pounds off a ham but made me take the whole thing."

REG'AR FELLERS—A Pleasure Ride

Food Production

International Distribution Of Fish To Help The Food Shortage

An intelligent international distribution of fish to help relieve the present serious lack of food throughout the world, was advocated at Ottawa by C. J. Morrow of Lunenburg, N.S., retiring president of the Fisheries Council of Canada.

Speaking before the Council's first annual meeting, which was attended by representatives of the Dominion's major fishing industries, cabinet ministers and heads of Government departments, Mr. Morrow said that "it doesn't make sense for European countries to be shipping fish to the United States, Cuba and even Australia when people are going hungry at their very doors." He added that there is evidence controls under the War Cabinet, the world must be speedily resumed and invoked through the co-operation of commercial and industrial agencies "if famine and chaos are to be prevented."

Mr. Morrow, who was succeeded as president of the Council by J. S. Eckman, of Vancouver, urged the Council to encourage the government to think of fish as food and to include fish in any long-range planning for increased food production. Such action, however, must be accompanied by a long-term plan of marketing.

"Even now," he said, "with millions in the world starving, it is quite possible that we shall have a surplus of some varieties of fish on the markets of this continent this year. For that reason a serious effort should be made by our government to bring about agreements with the nations concerned for an intelligent international distribution of fish."

Mr. Morrow told the delegates that the Council is now urging the government to exempt from customs duties equipment required from other countries and necessary to the fishing industry. He said this particularly applied to instruments that would assist in improving and extending facilities for production, processing and distribution. The Council is also taking measures, he added, to help maintain the standard of living of all engaged in the industry throughout Canada.

For Eye Health

Eat Yellow And Orange Foods Which Contain Vitamin A

Did you ever envy a cat its ability to see in the dark? asks the Nutrition Division. The matter comes up in connection with the present shortage of butter, the best source of vitamin A which takes care of eye health and prevents night blindness. However, a good nutrition rule to follow is that naturally yellow and orange foods generally contain a lot of this important vitamin. Some of them are carrots, squash, pumpkin, peppers, tomatoes and yellow corn. Use them cooked or raw, use them often and make the servings large.

Armenia became the first nation in history to adopt Christianity as a state religion in 303 A.D.

A LUCKY CITY

Shanghai Little Damaged By War Is Now Enjoying Boom

By Charles J. V. Murphy, In Fortune Magazine, says: Shanghai is off on the boom of its lifetime. The shops, hotels and night clubs are as jammed as those of New York and San Francisco. Shanghai has always had the reputation of being a lucky city, and its luck has never run faster than now.

It is lucky because it came through the war with comparatively little physical damage. Most of the destruction caused by the heavy fighting of 1937 that ushered in Japan's real battle for China was repaired during the long occupation; the subsequent American bombing, however, very heavy, and aimed mostly at shipping and fuel storage plants.

Still later, Shanghai's fate hung in the balance when the American high command toyed with a scheme for seizing the broad plain to the east of the city as a base for the strategic bombing of Japan. But it was Shanghai's good fortune that J. K. Ma satisfied the airman's requirements.

The last stroke of luck was the uncalculated circumstance of October and November last, as the city trembled on a currency panic, filled the port with American sailors, soldiers and airmen, laden with American dollars that were burning holes in their pockets. Shanghai bankers are all agreed that without this plan, the infusion of dollars the city would have fallen into a stupor. Indeed, so far was it gone in inflation as the war ended, so nearly worthless were the \$5,000 and \$10,000 notes, that the Japanese-controlled Central Reserve Bank had already begun to print \$50,000 and \$100,000 bills.

The millions of American dollars providentially released in the jade and silk shops, added to the daily buying of the regular army and navy establishments, provided almost at once a responsible currency. And by force of circumstances the dollar became the legal tender of China's great port. It has all been done in violation of China's solemn wartime exchange laws; in fact, the process may be conservatively described as the most spectacular, unabashed black market operation ever perpetrated. Both for the sake of pulling Shanghai through, the Chungking government and the Shanghai bankers have looked and continued to look the other way.

Luck And Honesty

Proved Good Combination For Serviceman's Wife Who Lost Purse

A waste-paper basket, an honest shopkeeper and luck reunited a serviceman's wife and her purse containing \$338 of her husband's gratuity money, their marriage license and other papers.

The purse, left on the counter of an Ottawa fruit store, fell into the waste basket and was discovered when the shopkeeper tidied up for the night. He gave it to police who returned it to the fearful and relieved serviceman's wife.
